## **Buy Local Benefits**

- **Local food is better for the environment**—keeps land open, in production and requires less fuel for transportation and therefore causes less pollution.
- **Locally grown food tastes better**—picked within the last day or two, it is crisp, sweet and loaded with flavor.
- **Local produce is better for you**—food that travels less time and distance holds more of its nutrients.
- **Local food supports local economies**—farmers purchase feed and materials from local businesses reinvesting in the community.
- **Local food strengthens local farm families**—with direct and local sales farmers can make more money, helping to keep them in business.
- **Local food is safer**—consumers know where their food is coming from and how it is grown. It's easier to trace back to the source if there is a problem.
- **Local food builds community**—farmers' markets provide excellent venues for community gatherings.
- **Local food preserves the open character and rural space**—with growing development pressures, picturesque barns, lush crop fields, and meadows full of wildflowers will survive only as long as farms are financially viable.
